21st January 2010

To the team at City Computers,

My sincere thanks for the professional manner in which you have been processing our wages and salaries over the years.

Passing on this function to you has been the best decisions I have made.

You have efficiently removed the burden and stress of worrying about the wages on a weekly basis not to mention the year-end pressure, allowing me to focus on my business.

Pooen and the team have delivered excellent service and I can fully recommend City Computers as a Total Payroll Solution.

Kind Regards,

MS Blackwell
